

AYUSH AGRAWAL

Android Developer | Mobile Technology Enthusiast

+919870804246 @ ayushmaserati@gmail.com <https://www.linkedin.com/in/its-ayushh-here/>
<https://its-ayush-here.netlify.app/> Noida, Uttar Pradesh, India

SKILLS

Android SDK	Kotlin	
Jetpack Compose	XML	
Android Studio	Retrofit	Hilt
Room DB	Firebase	
Design Patterns	RESTful API	
Git	GitHub	MongoDB
MVVM	Gradle	

EDUCATION

B.Tech. Computer Science and Engineering
[JSS Academy of Technology, Noida](#)
2022 - Present
Sector - 62, Noida

GPA
8.9 / 10.0

Higher Secondary Education(PCM)
[SSA Veedyapeeth\(CBSE\)](#)
2020 - 2021 Agra, Uttar Pradesh

Secondary Education
[Rajiv International School \(CBSE\)](#)
2018 - 2019
Mathura, Uttar Pradesh

KEY ACHIEVEMENTS

- 3 ★ **Coder @ Code Chef**
I have reached the 3 star benchmark in Competitive Programming at Code Chef
- Top 10 in Code Cubicle Hackathon
We were among the top 10 teams out of 1200 applications in Code Cubicle hackathon.

EXPERIENCE

Android Developer

[Gamehok Technologies](#)

07/2024 - Present Bengaluru, India

Aim to create a comprehensive platform tailored specifically for competitive gamers and streamers.

- Developed an Android application for gamers enabling participation in tournaments, team activities, and online interactions.
- Implemented features for following other gamers, creating chat rooms, and playing games together.
- Enhanced user experience and app robustness using Jetpack Compose, Retrofit, Hilt, and MVVM architecture.
- Managed the overall development and maintenance of the Android app.

PROJECTS

Zealicon 2K24

04/2024 - 05/2024

https://play.google.com/store/apps/details?id=com.zealicon_2024

The Zealicon companion app that I helped create includes an event schedule, venue maps, artist info, and a way to purchase tickets. With over 500 downloads, it helped attendees navigate the fest and made the event a success.

- [Zealicon 2K24 \(GitHub Link\)](#)
- Integrated **Razorpay Payment Gateway** for effortless ticket purchases.
- Students can access detailed information and stay updated on all fest events.
- Students can easily register for multiple events within the app.
- Team section, contact options, secure **OTP authentication**, and unique Zeal-ID for personalized fest experiences.
- Retrofit** for optimized network requests, improved server communication efficiency, **data retrieval**, and **synchronization**.
- Dagger Hilt** dependency injection, reduced development time.

Flatmate Finder (Flatify)

12/2023 - 03/2024

https://github.com/Agrawal-Ayush-009/Flatmate_Finder

Your one stop destination for finding yourself a Flat or a Flat mate.

- People can have access to all the flats and people who want flats.
- Integrated **CardStackView** library for Tinder-like swipe able cards to increase user interactions, **engaging design**.
- Realtime messaging feature for communication.
- Retrofit** for optimized network requests, improved server communication efficiency, **data retrieval**, and **synchronization**.
- MVVM** architecture, **better code organization**; **Dagger Hilt** dependency injection, reduced development time.

VOLUNTEERING

Core Team Member | Android Developer

[Google Developer Student Clubs, JSSATEN](#)

2022 - Present

We're a team of **Developers**, **Designers** and **Programmers** who work independently towards learning, contributing and collaborating in unison. I worked on many projects and learned a lot about **team work**, **collaboration** and **project Management**.
